SURGICAL Transformation

FACELIFT, NECK LIFT FAT TRANSFER

BEFORE **AFTER**

Dramatic Transformation

Let's turn back the clock 🕒

My lovely patient came to me with concerns about the loose skin in her lower face and neck. She also had noticeable volume loss in her face and looked tired in spite of being a high-energy person.

I performed a facelift and necklift with muscle tightening (platysmaplasty), as well as fat transfer to sculpt and optimize her facial rejuvenation. She has a beautifully timeless result 🌟

Notice the incredible skin transformation, too! 🥰 The result of expert skincare guidance from our Aesthetician, Kelly and the miracle of stemcells in her fat transfer procedure.
