### BREAST LIFT WITH AUTO-AUGMENTATION

BEFORE

AFTER

#### We Love a Good Lift! 🙌

My lovely patient was feeling a little deflated, This is her early transformation after I performed a #breastlift, repositioning her own drooping breast tissue as an 'auto-augmentation' flap. This technique restores upper fullness and lift without breast implants! It does not increase your bra size, just makes your breasts look perky! 🥰

Scars will take 1-2 years to fade maximally. We think she looks amazing already, just 3 weeks after surgery! 🥰

Our team is grateful for the privilege of joining our patients on their journey to confidence. 🌟
