

Beauty for WELLNESS

February is the month of love and that includes loving your skin, your confidence, and yourself. This month we are celebrating ways to refresh and rejuvenate, from our DiamondGlow® facial promo to the Perfect Pair Valentine's offer featuring TNS Advanced+ Serum and HA⁵® Hydra Collagen Water Burst Moisturizer.

We are also highlighting beautiful transformations, including a recent massive weight loss transformation by Dr. Capek, and taking a moment to celebrate our wonderful aesthetician Kelly on her birthday.

Whether through advanced skincare, surgical refinement, or everyday self-care, February is the perfect time to focus on feeling and looking your absolute best.

If you're craving instantly refreshed, radiant skin, this is your moment. Our TNS DiamondGlow® Facial combines advanced diamond-tip exfoliation with deep cleansing and infusion of medical-grade SkinMedica® TNS Advanced+ Pro-Infusion Serum to visibly improve texture, fine lines, and overall glow.

Choose your glow:

- DiamondGlow for \$199 (regularly \$259, save \$60)
- DiamondGlow for \$259 + FREE décolletage add-on (save \$75)

This non-invasive treatment delivers immediate smoothness and luminosity with no downtime, plus LED therapy and a custom SkinMedica® post-treatment mask for even better results.

Valid on single DiamondGlow facials only. Cannot be combined with packages. Ends 2/28, while supplies last.

PLASTIC SURGERY & MEDSPA

A personalized approach to restoring my patient's figure ♥ These before and after photos show a custom post-massive weight loss makeover for a patient who lost over 100lbs! The focus was on restoring balance, comfort, and natural proportions after such a significant transformation. Her surgical plan included a breast lift (mastopexy) with natural breast augmentation using fat transfer, along with a lower body lift to refine the waist and create a smooth, contoured silhouette.

While 'Mommy Makeover' is a common term for this type of transformation, it can be appropriate for many women experiencing changes from weight loss, aging, or life transitions.

My goal is to thoughtfully support how you want to feel in your body.
