

# Beauty for WELLNESS

As we step into March, we're leaning into a more thoughtful approach to rejuvenation. Whether it's subtle injectable treatments, refreshed, radiant skin, or a comprehensive surgical plan, the goal is always the same: natural, balanced results that feel like you.

This month, we're sharing ways to treat yourself with intention, explore personalized options, and feel supported at every stage—because confidence isn't about doing more, it's about doing what's right for you.

**JUVÉDERM® Collection of Fillers**

Hyaluronic acid injectable gels designed to restore volume and refine facial contours in targeted areas.

Contact us today to schedule your appointment and take advantage of this limited-time Double Points event!

\*While supplies last.

\*\*To receive up to \$100 in future savings, patients must be treated with two (2) JUVÉDERM® syringes during the same visit as BOTOX® Cosmetic. Individual savings are based on double Allé points earned and may vary based on treatment.

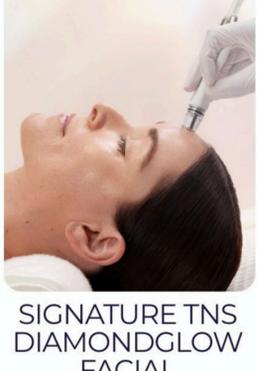

Rejuvenation should look effortless and refined, never overdone.

For this beautiful patient, I addressed facial aging comprehensively. A facelift and neck lift restored definition through the jawline and neck. A lower blepharoplasty refreshed the under eye area, and micro fat grafting to the mid face, orbital rims, and around the mouth replenished volume in a precise, natural way.

The key is treating both skin laxity and volume loss together. When lift and volume are balanced thoughtfully, the result feels soft, elegant, and truly harmonious.
