

May is all about thoughtful ways to care for yourself and the people you love. With Mother's Day around the corner, we're focusing on elevated treatments and skincare that feel personal, practical, and truly enjoyable.

From DiamondGlow experiences paired with at-home skincare to age-defying, hydration-boosting products, each offer is designed to keep your glow going beyond your visit. That same intention carries into every treatment we provide. Whether it's skincare or more advanced procedures, the goal is always natural, balanced results that feel right for you.

We're also still feeling the excitement from our Bloom Into Beauty event. Thank you to everyone who joined us. We loved connecting with you and sharing what's new, and there is so much more to come.

May is a reminder that confidence comes from choosing what feels right, for you or for someone you love.

LUCIE CAPEK MD
PLASTIC SURGERY & MEDSPA

This patient came to me feeling unhappy with her previous implants after they had shifted over time, leading to discomfort, asymmetry, and a distorted appearance.

Revision surgery in cases like this can be especially complex due to stretched tissues and thinning skin. To restore balance and support, I replaced her implants and incorporated biologic slings to help maintain a higher, more stable position.

Her result is soft, natural, and much more in harmony with her body.

What an unforgettable night 🌸🌟

Thank you to everyone who joined us for our Bloom Into Beauty event. It was so special to spend the evening with you and share an exclusive first look at our newest treatments and skincare launches. We loved getting to connect, celebrate, and help you discover new ways to glow with confidence.

If you couldn't make it, don't worry, there is so much more to come and we cannot wait to share it with you!
