

This month, we're sharing the stories behind the treatments, results, and patient experiences that continue to inspire us every day.

We're featuring a beautiful facelift transformation that showcases the impact of a personalized approach to facial rejuvenation, along with a heartfelt patient review that reminds us how meaningful the journey can be from consultation to results.

We're also highlighting two August offers designed to help you look and feel your best: our Age Defying Essentials skincare promotion featuring SkinMedica favorites and our Full Face Refresh JUVÉDERM special focused on restoring balance and enhancing your natural features.

Straight from her camera roll, and it speaks for itself ✨

This beautiful patient's personalized treatment plan included a face and neck lift, endoscopic brow lift, upper and lower blepharoplasty, and micro-fat grafting. Each detail was designed to elevate, soften, and restore while keeping her natural features fully intact.

You can see the difference not just in the features, but in the confidence behind the selfie. Grateful for her trust and for allowing me to be part of her journey 💖

I am extremely pleased with the results of my facial micro-fat grafting procedure performed by Dr. Capek. I feel the outcome looks very natural and has given me a smoother, more youthful, and refreshed appearance.

I especially appreciate the subtle improvements to my skin tone, under-eye area, mid-face, lips and overall facial balance, which make me feel like the best version of myself!

Dr. Capek's attention to detail, skill and artistry are truly exceptional, and I could not be happier with her work. I also want to highlight how wonderful the nursing team is—they are professional, caring, and attentive, which made me feel safe and very well cared for throughout the entire process.

The combination of expertise and genuine compassion from the entire team made this an outstanding experience.

Hearing how confident and refreshed my patients feel about their results means everything to me ❤️

Facial micro-fat grafting is all about restoring balance in the most natural way. Subtle changes come together to create a smoother, more youthful look without ever feeling overdone. Every detail matters, and I approach each treatment with precision and artistry.

I'm also so grateful for our incredible nursing team. Creating a space where patients feel safe, supported, and genuinely cared for is just as important as the results themselves.

Thank you for trusting us with your care. It is truly an honor!

The best facial balancing results don't come from treating just one area, they come from treating the face as a whole. 😊💧

As we age, volume loss happens gradually in multiple areas. Addressing the cheeks, chin, jawline, lips, or under-eye area together allows for subtle enhancements that restore harmony and create a refreshed appearance without looking overdone.

That's why we're excited to offer our Full Face Refresh Special! ✨

For a limited time, buy 2 JUVÉDERM syringes and receive your 3rd syringe FREE! 💧
